Warmerdam Paeonia B.V.

Last week we have started our peony roots season. Fir dig, and we will continuously be processing peonies now from one sort to the next.

We had been very careful with our estimates this cycle, extreme wet circumstances at planting time and in the 1 season. We are pleased to report that we see many po now also. When we will have extra roots, long suppose peonies can suddenly become available again for ship. Of course, your confirmed waiting list requests will alve before adding the roots in the webshop again.
